

Search the Apps store and find "Overdrive Media Console" – You will need to download this App. It is free. (Make sure you select the app for the iPhone)

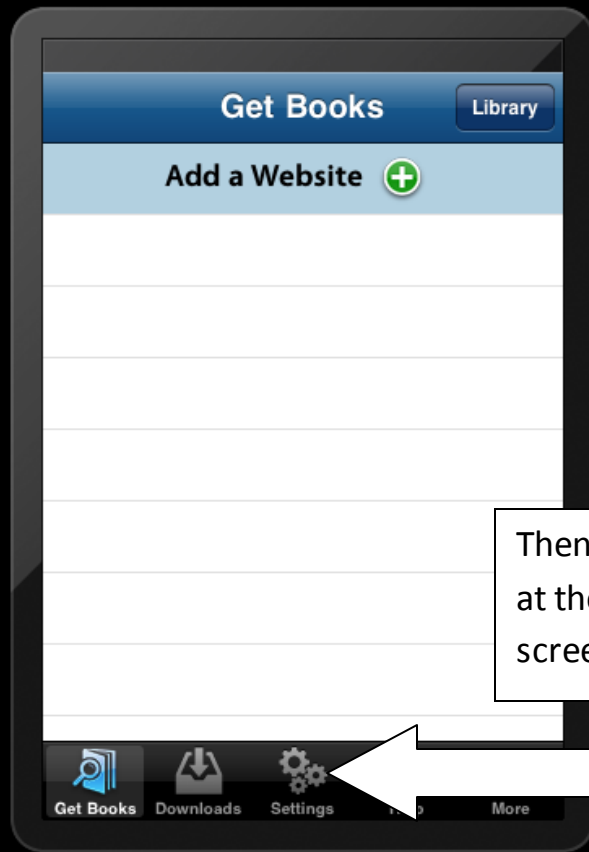

You will see the status bar as the App is loading and installing. When it is complete, open the Overdrive Media Console App.

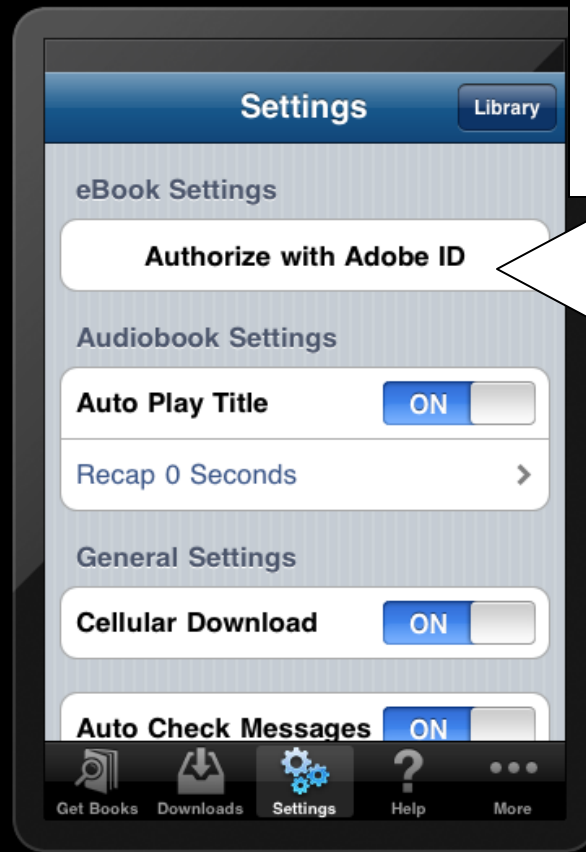

Before you can download an Ebook to your Iphone, you will need to have an Adobe ID. If you don't have one yet , go to [www.adobe.com](http://www.adobe.com) and sign up for an account. It is free and you only have to do this once. Write down your Adobe ID and password - you will need it in a minute.

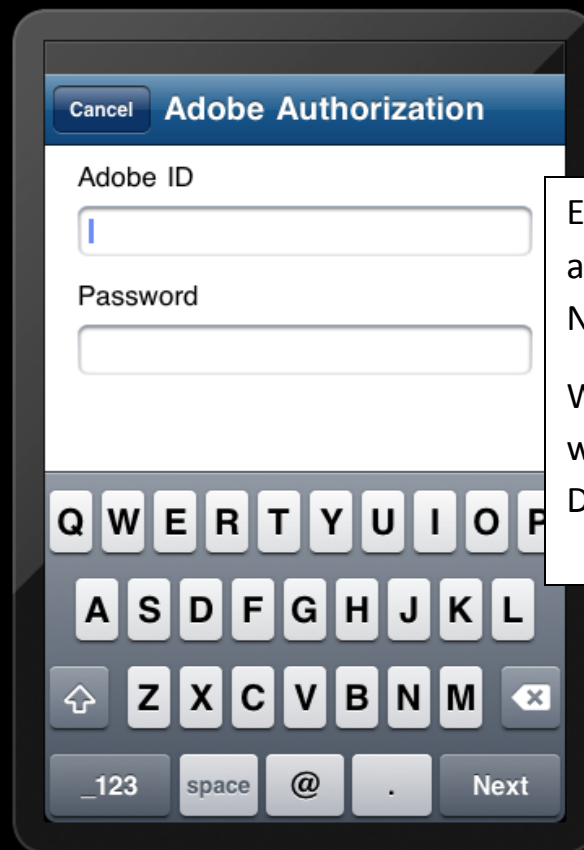

Once you have the Adobe ID click here – “Get Books”

Then click on "Settings" at the bottom of the screen.

On this screen, select "Authorize with Adobe ID." This is where you will enter your Adobe ID and password

The screenshot shows an iPad screen with a dark background. At the top, the status bar displays 'iPad', signal strength, '9:47 AM', and '54%' battery. The main content is a white dialog box titled 'Adobe Authorization' with a blue header bar containing a 'Cancel' button. Below the title are two text input fields: 'Adobe ID' and 'Password'. A keyboard is overlaid on the bottom half of the screen, with the 'Next' button highlighted in blue. The keyboard includes standard QWERTY keys, a shift key, a delete key, and a 'Next' button.

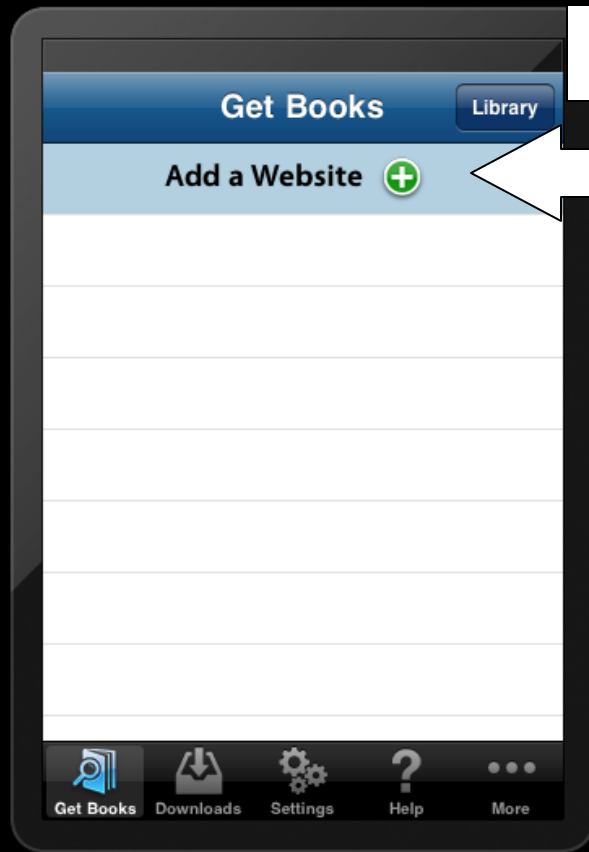

Enter your Adobe ID and password then click Next.

When prompted you will click "Authorize this Device."

Your device is now authorized to use Ebooks from Overdrive. Now you have to tell it which local library system you are going to get Ebooks from.

Select "Get Books" at the bottom of the screen.

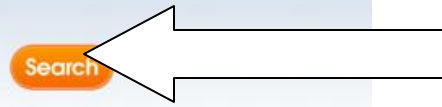

Select "Add a Website"
